

Note our adjusted sizes below:

Arm chair  
"Gibbs" chair

IN ALL OF OUR MEASUREMENTS WE HAVE TRIED TO GIVE A RANGE OF MEASUREMENTS. WE HAVE WORKED WITH 16 EUROPEAN & AMERICAN BOOKS. THE FIRST NUMBER IS ALWAYS THE "STANDARD" NUMBER, AND THE ONE YOU'LL BE STUCK WITH IF YOU BUY READYMADES. THE SECOND NUMBER IS UNDERLINED LIKE THIS, AND IT IS THE MEASURE WE FEEL TO BE MOST COMFORTABLE. VIC IS 5'8 1/2", JIM 6'1", HARLANNE 5'6" & SARA HENNESSEY ABOUT 5'9". NATURALLY WE HAVE EXPERIMENTED WITH OTHER FRIENDS AS WELL. WE FEEL THAT OUR UNDERLINED SIZES REFLECT CHANGING WAYS OF SITTING & WORKING. WE SUGGEST YOU WORK WITHIN OUR REVISED PARAMETERS.

HERE WE HAVE GIVEN YOU STANDARD HEIGHTS FOR DESK TOPS, DINING TABLE TOPS & DINING OR DESK CHAIRS. VIC'S OWN DINING TABLE ALWAYS ATTRACTS COMMENT BECAUSE EVERYONE IT'S "JUST RIGHT". STILL FEELS THAT IT IS ONLY 27" MOST BOOKS RECOMMEND 30".

WHILE THIS YOUNG LADY IS IN A ROCKER, THE MEASUREMENTS ARE EQUALLY APPROPRIATE TO MOST "EASY CHAIRS."

2. STANDARD DRAFTING TABLE & STOOL.

WALL-MOUNTED TABLE FOR STAND-UP WORK.
